

Terms & Conditions

Welcome to the NJR Home Services residential appliance protection program. By purchasing one of our service contracts, you're protected from unexpected and costly appliance repairs - saving you both time and money.

You'll find that our service contracts cover the most frequently replaced parts on all major brands. Plus, all repairs are handled exclusively by our certified service technicians.

This booklet provides a detailed description of the terms and conditions of our service contracts. To get the most from your coverage, we recommend that you become familiar with this information.
