# Our Insider Tip:

## Save \$500 on a New AC System!

Those hot, humid days of summer are on their way. If your AC is no longer cooling like it should, or if you've experienced frequent breakdowns, replace it now and get **\$500 off\* a new RUUD AC system!** And here's a good tip on why you shouldn't wait to replace:

If your AC system was installed prior to 2010, it is using R-22 refrigerant (Freon®). This refrigerant is being phased out, making it more expensive and harder to get. If your old AC system needs to be charged, it could end up costing you hundreds of dollars. New systems use R-410A (Puron®), a more environmentally friendly, cost effective alternative. Replacing your system now may help you avoid costly repair bills in the future.

By upgrading to a new RUUD AC system from **NJR Home Services (NJRHS)**, you'll enjoy:

- **An Energy-Efficient System** that can help you save on your monthly electricity bills.
- **Expert Installation** by our professional installers, who will keep you informed from beginning to end – and clean up after!
- **Easy Financing** with several convenient options for your budget.

Our team of cooling experts is here to help you save! Call **877-466-3657** or visit [njrhomeservices.com](http://njrhomeservices.com) for more information.

\*Qualifying RUUD AC systems only. Offer expires June 30, 2019. Not valid on prior purchases. Cannot be combined with any other coupon, promotion or discount. Call for complete program eligibility, dates, terms and conditions.

## Four Great Reasons to Go Solar Now!

Did you know New Jersey has some of the nation's highest electricity costs? That's why over 400,000<sup>1</sup> NJ homeowners are harnessing the power of the sun to lower their bills today and for decades to come.

Reduce your monthly energy costs with a solar lease from **NJRHS** and get a **\$1,000 signing bonus!**\*
