

Join the
CELEBRATION!

**For 25 years,
it has been our
pleasure to
serve you!**

2025 marks a milestone we're incredibly proud to share: we have been serving our neighbors with trusted home comfort solutions for 25 years!

Over the past two and a half decades, we've weathered storms together and adapted to changing technology, expanding our products and services to focus on what matters most: keeping our customers comfortable.

Serving Monmouth, Ocean and Morris Counties, our mission has always remained the same: to deliver exceptional whole-home comfort solutions through the highest quality work and a strong commitment to customer satisfaction.

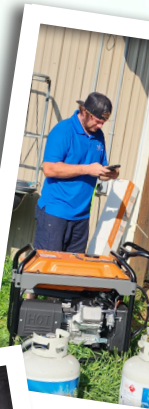

From our very first service call in 2000 to today, we're here for you — and we're grateful to be the team you rely on to keep your home comfortable.

Powering *Liberty Haven Farm*

When we learned the non-profit animal rescue Liberty Haven Farm was struggling to keep their animals safe during power outages and extreme weather, we called on our electrical experts to lend a hand.

Our team met with the farm's owner, Carol, to see how we could help her and her animals. We made a plan and took action, updating the barn's electrical panels and wiring, and donating a generator to keep the farm's water well working. Now, the animals that call Liberty Haven Farm "home" will have water no matter the weather.

Thank you to Carol and the Liberty Haven Farm volunteers for all you do! Caring for rescue animals takes a community, and we are proud to do our part.

NEXT EXIT Your New Equipment Installation Journey

When it comes to keeping your home comfortable, we believe your installation experience matters just as much as the equipment. From first contact to the final follow up, we work hard to ensure every step of your journey is simple, stress-free and tailored to your needs. Learn how the buying journey with NJR Home Services is different.

1

You need new HVAC equipment, so you reach out to NJRHS via phone, email or web. Shortly after, we contact you to set up an appointment for one of our Comfort Experts to provide you with a customized, in-home estimate.

2

You decide on NJRHS for your new equipment. We work with you to find the best day and time to schedule your installation, providing an arrival window and answering any initial questions you have.

3

Our experienced installers come to your home with your new equipment. After completing your installation, the old equipment is hauled away free of charge and you are trained on your new system. Your installation team makes sure you are comfortable before they leave.

4

Within 24 hours, your Home Comfort Specialist contacts you via phone to ensure your new equipment is working as it should and you have no further questions or requests.

5

After 7 days, we call to ensure you are completely satisfied with your experience. Any further needs are discussed, and we provide you with a direct line to call with any questions you may have.

We know purchasing a new HVAC system is a big decision and commitment. At any time during or after your installation, our Customer Experience team is here to support you!

REASONS TO PROGRAM YOUR THERMOSTAT

Your thermostat may be one of the smallest devices in your home, but when programmed correctly, it can deliver big benefits for your wallet and budget.

Here are our top 5 Tech Tips for maximizing your thermostat.

1

Efficiency & Energy Savings

Programming your thermostat to adjust temperatures when you are home, away or sleeping, can help save on energy costs while keeping your family comfortable. Even small adjustments help save energy.

2

Reduced Wear and Tear on Your HVAC System

With a programmable thermostat, heating and cooling system operate more efficiently by making smaller temperature adjustments throughout the day. This means less short cycling, which gives your system “breaks” throughout the day.

3

Better Sleep and Daily Routines

Cooling down at night and warming up in the morning helps improve sleep quality - and your thermostat can handle your unique schedule automatically. Create custom schedules so your home always matches your routines.

4

Convenience and Peace of Mind

Remember the term “set it and forget it”? Once you set a schedule for your thermostat, you don’t have to worry about manual adjustments throughout the day. Check one off your to-do list and let your thermostat do the work for you.

5

Create a Home as Smart as YOU!

Smart thermostats track your preferences and energy use, helping to optimize your budget and comfort. They can also integrate with many other smart home devices for maximum efficiency and control.

Need help programming your thermostat or upgrading to a smart model?
Our Comfort Specialists are here to find the right solution for your home.
